

SoLVBL Solutions' Flagship Cybersecurity Product Q by SoLVBL™ Receives Independent Cryptographic Test Validation

Toronto, ON – September 9, 2021 – SoLVBL Solutions Inc. (“**SoLVBL**” or the “**Company**”) (CSE:SOLV) an innovative cybersecurity company that provides proprietary data authentication SaaS that uniquely features advanced cryptography for data authentication, announced that the Company has completed independent test validations of its cryptographic cybersecurity product, Q by SoLVBL™.

The tests performed on Q by SoLVBL™, the Company's flagship cryptographic cybersecurity product, confirms the system to be existentially unforgeable. The tests were performed by Sonam Devgan Kaul, Ph.D., an independent cryptography expert based in Toronto.

Ms. Kaul is an Assistant Professor of the Mathematical and Computational Sciences Department at University of Toronto, and a Post-doctoral Cryptography Researcher at Department of ECE at University of Toronto. She was previously the Academic Coordinator at the Fields Institute for Research in Mathematical Sciences. Ms. Kaul's Ph.D. was completed in Cryptography. Ms. Kaul undertook an independent, extensive, in-depth and thorough review of Q by SoLVBL™. The Company is pleased to announce that Ms. Kaul's findings have verified the system to be existentially unforgeable and the assurances the company claims –

namely: Identity, integrity, completeness, portability, attribution and confidentiality

have all been demonstrated, mathematically and cryptographically to be proven and true.

“We are delighted with the outcome of Ms. Kaul's analysis. This is one more step - and an incredibly significant step - in establishing Q by SoLVBL™'s credentials. Any organisation with data worth forging should be using Q by SoLVBL™”, said Ray Pomroy CEO of SoLVBL solutions Inc.

“This is a key further development in SoLVBL's journey to being a highly successful business in today's ever changing technology world” Mr. Pomroy noted. He added, *“SoLVBL has successfully raised \$4 million recently, which will fund its ambitious growth plans. The Company is actively adding to its talent pool as it continues to bolster its team. Ms Kaul's analysis demonstrates Q by SoLVBL™'s pedigree in providing both a unique solution to data authentication and cyber security. SoLVBL believes, if you have data worth forging, you should be using Q by SoLVBL™. We look forward to more announcements as we progress on our business plan through to the rest of the year”.*

SoLVBL Solutions Inc.

SoLVBL is an innovative cybersecurity company. The Company's mission is to empower, better, faster decisions by developing a universal standard for establishing digital record authenticity. The lead product Q by SoLVBL™, is a proprietary software of the Company, designed to be easy to use and adopt, economically priced and provide digital record authentication at very high speed. Q by SoLVBL™ allows organizations to establish trust in their data. The Company is currently pursuing the following verticals: chain of custody for digital evidence; including, NG-911, data used in the financial sector, medical applications and critical IoT infrastructures.
