

SoLVBL Solutions' Digital Payment Instrument Authentication Seal Receives Notice of Allowance from US Patent Office

Toronto, ON – April 4, 2022 – SoLVBL Solutions Inc. (“**SoLVBL**” or the “**Company**”) (CSE:SOLV) (OTCQB: SOLBF), an innovative cybersecurity company that provides proprietary data authentication SaaS that uniquely features advanced cryptography for data authentication, is pleased to announce that the United States Patent and Trademark Office (USPTO) has issued a Notice of Allowance for the Company’s U.S. Patent Application No.: 16/791,326, Method and System for Digital Payment Instrument Deployment of Authentication Seal.

The Notice of Allowance means that the USPTO would issue the patent after certain formal steps have been completed. “This is a very important next step in the development of SoLVBL’s technology offering” comments CEO of SoLVBL, Kaiser Akbar. “It is something we have been working very hard on for quite some time, and it is a great milestone for the company”.

This Notice of Allowance will allow the Company to aggressively market its solutions to the distributed financial (DeFi) and centralized financial (CeFi) sectors. This newly granted Notice of Allowance together with the previously granted US patent 11,146,386 strengthens the Company’s intellectual property in data authentication and cryptographic validation of data. This Notice of Allowance should allow for an acceleration into the Company’s foray in the digital payment sector.

“We have been enhancing strong intellectual property protection around our assets, and we continue to create value for our Company. This new Notice of Allowance allows us to protect our technology portfolio and continue to develop data authentication products for the financial services sector. We strongly believe that digital currencies and digital payment systems will play an integral role in the global economy for the foreseeable future, and our digital payment authentication seal has the opportunity to be a large part of this future,” said Kaiser Akbar, CEO of SoLVBL.

You can authenticate your data before use by Q by SoLVBL™. Q by SoLVBL™ allows you to create Trust, Fast.

If you have data worth forging, it’s worth protecting with Q by SoLVBL™.

SoLVBL Solutions Inc.
